

At an early age I've already started to focus on art and tried to work with various materials. After finishing High School I worked in the Hungarian National Gallery as restorer. In addition I attended different classes in the famous Desi Huber art circle.

I've been living and working in Austria since 1977. Furthermore I worked as graphic artist, porcelain painter and window dresser.

To broaden my artistic horizon I attended courses in the art school Lazarettgasse (Vienna), seminars held by Prof. Fischer/Academy of fine arts Vienna and Prof. Kaiser/University for applied arts Vienna.

Moreover I am a partner of the Art4life Charity Gallery „Licht für die Welt“, Austria, ambassador for the „Museum of the Americas“ as well as director of the international art circle 21C ICAA in Hungary.

So far I attended more than 70 exhibitions nationally as well as internationally, e.g. Qingdao, Seoul, New York, Los Angeles, Miami, Budapest and Florence.
