Kenneth Mwangi

Video Editor and Linux Administrator

0711407315

nyaga.kenneth@gmail.com

I have taught myself video editing working with the best softwares in the market i.e AfterEffects CC2014, MagixMovie Maker 2013, Magix Edit Pro, Magix MusicMaker, CyberlinkPowerDvd Video Editor. I have also taught myself Linux, Currently using Kali Linux 2016.1 which i use it to test for vulnerabilities and giving consultancy on how to enhance security in a system. Have Worked as an Intern at Kenya Methodist University where i also got an opportunity to teach computer packages, and also at the County Government of Meru in the Information Technology Department.

WORK EXPERIENCE

January 2016 - January 2016
Intern | County Government

Did my intership at the county government of Meru, where i used to install softwares, troubleshooting and managing the systems the county used for accountability. I also designed various logos and brochures

EDUCATION

September 2013 - April 2016
Business Information Technology

Kenya Methodist University

Undertook Bachelors of Business Information Technology but i majored mostly in information technology while at the university. I got interested in the media and infosec fields which i still teach myself new ideas ,implement them and share with those around me.
