PROJECTS

etnoeto!
2009 to Present
Etnoeto started in the mid of 2009. It consists of drawings, paintings, illustrations and prints. Etnoeto was inspired with Serbian culture, music, people and life. It represents a modern view and interpretation of Serbia. Somehow it should bring closer the tradition to modern society. It's mixture of modern life and traditional surrounding. Surrounding is so colorful, warm and cold, represents joy of living and unattainable freedom.
