*After a 20 year career in advertising as an Art/Creative Director. I new it was time to focus on making Art. The Crushed Can Series and The Dude Raw Series are a good example of how I like to express myself. These colourful and dynamic Artworks put trash in a new perspective. In our man made environment loads of fantastic accidentally occurring stuff is going on that is really worth looking at. This inspires me as a artist and I often use this as a base for my work. Although I went to a classic Art Academy the way I work and the techniques I use are mixed. Photography, painting and computer techniques are part of my working process. The Art in this document is a small example of my work, hope you enjoyed it!*
