

ARTIST RESUMÉ & C.V.

Since I started painting approximately four years ago, my development towards becoming a professional artist has to many been nothing but spectacular. Having had no art training, I base this success on my many creative talents but also on my personal taste of certain art forms that I have merged onto my canvases into a very unique painting styles. In my studio I am continuously experimenting and improving this art form now named “Colorist Art” which was bestowed by a group of my colleagues eighteen months ago and which I’m using extensively in all my marketing activities as a professional artist.

My “Colorist Art” style, which I am passionately engage in, is a never before seen art form where I draw on the properties of oil paints to produce color, light and perspective in a very distinguishing way. My employment of avant-garde and vivid color mixtures in combination with my noticeable techniques are now recognized by many of my peers as the dominant hallmarks of all my art work. As an example, I have developed processes that cause the usual brush strokes that are apparent on most paintings to literally recessed optically below the surface thus leaves a flat brilliant coat of oil paint that deflects all the intensity of the colors towards the viewer . The combination of all these techniques produce paintings that are vivid and powerful with colors and particularly movement.

In the past six months I have received the following news and honors:

- At my first ever painting competition in October 2017, my entry won the prestigious “Public’s Choice Award” during the month long “Selection 2017 Exposition” sponsored by the Ottawa Art Council. Forty paintings, selected by a jury from over 400 local applicants, were on display.
- As of the end of July 2018, four of my paintings will be for sale at the commercial gallery of the new “Ottawa Art Gallery” in Ottawa.
- From March 14th to April 16th, first “colorist art” solo exhibition where 32 new paintings were on display at the prestigious Trinity Gallery in the Shenkman Art Center in Ottawa. During this exhibition titled: “Colorist Art – Like or Dislike it !”, thirteen paintings were sold and the exhibition was viewed by a few thousand visitors. A short two minutes video of the show is available on YouTube at: <https://youtu.be/OI3SAf0IQQ>

Painting sales history summary:

In the past four years, I’ve completed over a 140 different works of art and sold over 90% of all my paintings. The remainder are available for sale on my website www.StudioTrebor.com .
